

Plantronics First 'Dect 6.0 Interference Free Communication' Wireless Headset

The Plantronics CS55 wireless headset system combines the clarity of traditional corded technology with the mobility of wireless, so employees can move around the office to wherever business takes them - without interrupting or missing a call. Continuing our tradition as a technology leader, Plantronics presents the CS55 as the first headset to implement 1.9GHz UPCS voice-dedicated wireless technology. The CS55 evolves from the CS50 with an improved smaller profile base and with the new DECT 6.0 Technology resulting in less radio frequency interference.
